## Message from the Principal

Dear parents,

I hope this message finds you well! This is our last month of winter! While the weather is still great, we took this opportunity to have lots of activities outdoors!

Here are some of the activities that we planned: Healthy food week, sports day, and the 3D shapes project.

The children love exploring the world around them, that is why we have been having picnics outside whilst enjoying the fresh air. Furthermore, we had plenty of fun on sports day! Sport and exercise are fundamental to growing and developing at this young age. Our amazing sports teachers prepared activities that would be fun, exciting, and important to strengthening gross and fine motor skills. However, exercising is not the only key part of living a healthy life. Eating healthily is crucial to our life. Implementing healthy habits at EYFS will play a significant role in later life. We teach our students to have a healthy diet that will make them stronger, cleverer and happier.

I wish you all a wonderful upcoming spring. We cannot wait to share with you more events that we are going to have.

If you have any questions, do not hesitate to ask!

**LANA KOYI**  
School Principal

# Healthy food week

Having healthy habits is a huge advantage, especially implementing them from a young age! Children require nutritious meals to grow, develop and learn! At SIPS we like to teach the children to understand how necessary it is to eat healthily!

# Sports day!

For our students, running and playing actively is as natural as breathing. They have endless energy which should be channelled to provide fun and enjoyment, as well as giving them the chance to participate in a wide range of physical activities while developing an understanding of how their bodies work and move.

# 3D shapes project

Like all years, the EYFS sections have projects too! We enjoy crafting with our little artists. Our subjects are diverse and we enjoy teaching them new things, and most of the time children enjoy creating themselves, they are very creative and can surprise us with their creations! Learning about 3D shapes was lots of fun!

# Upcoming events!

- **Haq al Lila**
- **White day**
- **World book day**
- **Mother's day**
